

Lower Tamar Lake Feeding Stations

1. From the Lower Tamar car park turn left along the path towards the hide. About 15mtrs before the stock pond on the left there is a muddy track, follow the track to the top, the feeders are down to the right near the SW Water fence.
2. Continue up the path to the hide on the right.
3. Leave the hide and turn right towards the Upper Lake, the path is straight, at the end where there is a bend look right, the feeders are set about 10mtrs into the trees.
4. From the Lower Tamar car park cross the dam and the footbridge, turn right down the slope and take the left track marked Aqua Trail. Go past the stone sloosh gate after about 15mts there is a telegraph pole in the bank, the feeders are set down to the right behind the large beech tree near the river bank. In winter the feeders can be viewed from the path.
5. From the foot bridge again turn left and follow the track past the fishing swims until it opens out into a grassy area, follow the path to the back of the area and before you enter the trees there is a very muddy track to the feeders. The feeders can be viewed from the grassy area.
